Work Experience

Data Entry Process Executive

Omega Healthcare – Trichy, India | Nov 2021 – Aug 2023

- Interacted with US clients via calls and emails to gather and verify data, improving communication and Collaboration skills, which are essential for teamwork in front-end development.
- Checked data for errors and ensured accuracy before updating records, helping develop a strong attention to detail and problem-solving abilities, crucial for debugging and writing clean code.
- Managed and updated data in charge sheets and Outlook, organizing information efficiently, which helps in managing content and layout on websites.
- Worked flexible hours to accommodate client requirements across different time zones, demonstrating adaptability and time management, important for meeting project deadlines in development work.
- Took on additional responsibilities and worked extra hours during month-end reporting to meet deadlines, showcasing a strong work ethic and commitment to meeting targets, valuable in fast-paced development environments.
